MESSES. BARBER and Marsden, directors of the Great Eastern Steamship Company, and Mr. Brown, a ship broker, were formally charged one thousand pounds from the New Orleans exhibition syndicate by stating that the vessel, Great Eastern, was 60 for sea, whereas she was totally unfit for a sea voyage. The case was adjourned.

In the dairy department of the recent Fat Stock Show at Chicago, considerable excitement was noticeable over the action of the State Board of Agriculture in deciding to allow the butters and oleomargarine manufacturers space in the building for their exhibits. The butters denounced the action vehemently, and did all they could to have the order rescinded but without avail.

THE first definite details of Senator Stanford's scheme for the establishment of a university in California, a great university, were made public in San Francisco recently. His scheme at Palo Alto, near Menlo Park, about thirty miles from San Francisco, has been selected as the site. The several buildings comprising the university will be in the general plan of a parallelogram, and constructed so as to permit of additions being made as the necessities of the institution may require. Senator Stanford will donate to the university his Palo Alto, Grizzly and Vina properties, worth five million three hundred thousand dollars. To this he will add a money donation so as to make the total endowment of the university twenty million dollars.

In reference to Secretary Whitney's order sending the Tennessee and Galena to the Isthmus of Panama, the Washington Star quotes a naval officer as saying: "We haven't received the bill for the burning of Aspinwall yet, but it will be along this winter, and there will be a howl raised. Damages to the extent of a good many million dollars were caused by the burning of Aspinwall, and it looks very much as if the Government would be compelled to foot the bill. We guaranteed to keep the transit open. Colombia couldn't do it and in the event of its failure, the responsibility rested on our shoulders. We opened the transit, but before that was done Aspinwall was burned and millions of dollars' worth of property was destroyed. The people who suffered will expect remuneration, and as I said, will send the bill to us."

THE recent change in the difference between car-load and less than car-load rates by the lines east of the Missouri River will necessitate a complete change in the Joint Western Classification Committee as now constituted. Heretofore the Joint Western Classification Committee applied to all the lines west from Chicago to the connections with the Southern and Central Pacific Railroads. The new changes, however, have been adopted only by the lines between Chicago and St. Louis and the Missouri River and between Chicago and St. Paul. The lines west of the Missouri River refused to make the same changes, claiming that there was no demand for it by the people along the lines of their roads. This necessitates the organization of two Classification Committees, one for the lines east of the Missouri and another for the lines west of the river.

CHIN FUNG, the Chinaman who was shot a few days ago by a madman in Solomon's pawn shop, at Denver, Col., subsequently died. His death was held to be due to the effects of the wound, but to the effects of a headless superstitious among the Chinese concerning death. Two days before his death the unlucky Chinaman suffered a relapse and his attendants, thinking he was going to die, caused his removal from the comfortable quarters he was in to a vacant house in Chinatown. Here the wounded man was placed on a rude couch, without blankets or covering of any kind, the door and windows thrown open, and he was left to die. This was done in accordance with a custom of the Chinese, who mortally fear death, and who invariably leave a dying man to his fate. After two or three hours, by order of the police, the body was removed back to his former quarters, but the doctors then stated that death would probably ensue on account of the exposure.

ASPIRING TO STATEHOOD.

Montana Territory, claiming a Population of 110,000, and Wonderful Agricultural and Mineral Resources, Wants to Join the Union.

WASHINGTON, D. C., November 12.—Hon. Joseph K. Toole became Montana's Representative to Congress on the expiration of the term of Hon. Martin McGuire, on March 4, 1885. Born in Missouri, Colonel Toole has resided in Montana since boyhood, and is familiar with the wants, as well as the wonderful resources of that growing territory.

He served with distinction as State's Attorney, member of the Legislature, Assembly, and of the Constitutional Convention of the Territory, and was chosen by the people to represent the Territory in the Forty-third Congress. He said yesterday: "Montana is drawing considerable attention in the East as a Territory of great possibilities. The territory is enjoying the greatest prosperity, and a most inviting future. Since the completion of the Northern Pacific and Utah Railroads our population has rapidly increased, and capital has been attracted to it. A million head of stock, 100,000 head of horses, and 1,000,000 head of sheep are grazing upon the nutritious grasses of that territory. Our mines are the most productive of any in the West, and the greater interest is in the industry the mineral output for 1885 will approximate value \$25,000,000. Our population is close on to 110,000. The territory is a vast field for a long time, but the vote at the last election showed 25,000 male citizens over the age of twenty-one years in the territory.
